Summit Hosting to Sponsor 90 Minds' 7th Annual 'Meeting of the Minds' Conference in San Diego

The cloud hosting services provider joins group as a member, sponsors upcoming event, and demonstrates commitment to Sage customers and partners.

ATLANTA, GEORGIA – January 23, 2018 — [Summit Hosting](#), a cloud-based hosting provider focused on Sage applications and customers, has announced it will be a sponsor of the 7th Annual 'Meeting of the Minds' conference in San Diego, CA from March 1-3, 2018. Organized and hosted by [90 Minds](#) Consulting Group, the conference features a full roster of educational sessions and networking opportunities to share and learn from one another in a format that embraces the mantra 'more minds are better than one.'

Consisting of independent ERP consultants and resellers, 90 Minds members collaborate throughout the year to help each other find answers and solve problems for their clients. With strong roots in Sage 100 software, the name 90 Minds originates from "MAS 90" which has since been renamed to Sage 100.

As a newly-minted member of the group and sponsor of the event, Summit Hosting will have an opportunity to engage with Sage partners while strengthening existing relationships. Stan Kania, President of Summit Hosting, says his company's commitment to the Sage ecosystem is an integral component of their history. "As a former Sage 100 reseller and consultant myself, our organization and founders are intimately familiar with and committed to the Sage channel."

"Each year we reach out to our ISV community to renew our relationships and expand our affiliates," notes Moira Goggin, Executive Director at 90 Minds. "Summit Hosting, one of our newest Affiliate Members, is a Silver sponsor this year and we warmly welcome them to the group. Their generous sponsorship reflects a welcomed commitment to our organization and ongoing success of this annual event."

Wayne Schulz, Owner of [Schulz Consulting](#) and former President of 90 Minds Group, adds, "I've found that companies that actively participate in a collaborative group such as 90 Minds have significant incentive to make sure each and every customer is delighted. Membership in 90 Minds is a strong indicator that a company stands firmly behind both their product, and more importantly, the happiness of their customers."

Wayne continues, “Whether to install software on-premises or host applications in the cloud has become a critically important decision for many of the Sage 100 implementation projects we engage in today. I look forward to networking with the folks from Summit Hosting and learning more about [Sage hosting options](#) that, for some customers, make it easier to manage their software applications and technology infrastructure.”

At the 7th annual Meeting of the Minds Conference, Summit Hosting representatives will present a session educating attendees on the benefits of private cloud hosting for Sage customers. It will be Summit’s inaugural contribution to overall educational efforts advocated by 90 Minds throughout the year via the group’s online community.

Stan Kania says, “It was an easy decision to solidify our place in the 90 Minds community by joining and participating in this prestigious organization. Many of our partners and friends are already 90 Minds members and we’re excited about the opportunity to support the group as both a member and financial sponsor to help underwrite the great work they’re doing.”

About Summit Hosting

Summit Hosting was founded by Stanley Kania in 2016 through the merging of myownASP.com and NovelAspect.com. Bringing these companies together and creating Summit Hosting has catapulted the business into becoming the leading hosting provider for QuickBooks and Sage Programs.

Summit Hosting provides cloud-based hosting to U.S.-based and international businesses, delivering the highest level of performance, security and customer service. They offer clients dedicated servers in addition to hosting several 3rd party applications. Your experience with Summit Hosting begins with a knowledgeable U.S.-based sales team. They work with you to understand your business, goals, and hosting needs. Once they’ve developed the right solution to meet your objectives, Summit Hosting puts that plan in to action with their technical team.

With a team of certified support professionals available 24/7 to provide help, company is 100% customer-focused, a principle that has guided the business since its inception. Summit Hosting understands the importance of providing flawless customer support, as well has how to deliver that.
